We select the perfect ship for every voyage.

In the world of Luxury Expedition Cruises, one size does not fit all. We continuously scour the world's finest expedition fleets to select the perfect vessels for every voyage, ensuring we have just the right blend of size and comfort.

Luxury Expedition Cruisers in Polar Regions

The largest vessels in our lineup, luxury expedition cruisers are big enough to handle any seas but small enough to access restricted polar areas. We exclusively charter and then specially configure these ships to limit capacity to 199 guests (from a maximum of 244), affording a personnel-to-guest ratio of 1 to 1.2 and a private balcony with every stateroom and suite.

Small Explorer Ships for Cultural and Warm-Water Voyages

When it comes to expedition vessels, small means versatile. These small explorer yachts are perfectly sized to access the exotic ports and harbors closed to bigger ships. When exclusively chartered and configured for our expeditions, these vessels feature a capacity limited to 148 guests (from a maximum of 184), a private balcony with every stateroom and suite and an intimate 1 to 1.2 personnel-to-guest ratio.

Ecoventura Adventure Yachts in the Galápagos

Our exclusive Ecoventura adventure yacht, Theory, explores the Galápagos Islands with a standard of luxury unrivaled in the region. Stretching 142 feet in length, this stylish, sophisticated vessel affords plenty of space to accommodate up to 20 guests and a crew of 13 amid the wild wonders of the equatorial Pacific.

We elevate life on board to exacting standards.

Whichever expedition you choose, our elegant cuisine, fine wines and attentive service enhance every moment on board.

Savor Sumptuous Cuisine and Unlimited Beverages

Luxury cruising with A&K includes every meal and unlimited house drinks aboard your ship, even Champagne. With gourmet culinary fare at your fingertips, savor a menu that includes:

- ▶ A wide range of fresh salads, buffet and à la carte options, and exquisitely plated dishes
- ▶ A lavishly coursed Captain's Dinner
- ▶ 24-hour room service and breakfast in bed
- ▶ An open bar, including all house wines, Champagne, beer, spirits, sodas, tea and coffee
- ▶ Early riser coffee with pastries, afternoon tea and snacks, and an aperitif hour

Enjoy En Suite Butlers and Five-Star Shipboard Service

Guests who reserve any category of suite also enjoy another A&K exclusive: complimentary butler service throughout their cruise. Regardless of your accommodations, your experienced, English-speaking staff is well versed in tending to every need with grace and style.

“My Antarctica expedition with A&K exceeded all expectations. The ship was beautiful, the food fabulous and the service excellent. Reaching my seventh continent was an absolute pleasure.”

— Patricia; Brentwood, NY; December 2022

Our expeditions are designed for a sustainable future.

From the very beginning, we pioneered an approach to travel that helped preserve the communities and unspoiled locales we visited. Today, it remains our mission to actively protect and care for every environment we touch.

We Sail on Sustainable Small Ships Utilizing Innovative Technology

Each luxury expedition cruiser and small explorer ship we charter features energy-efficient engines, reduced fuel consumption using only environmentally compliant fuel types, and computerized dynamic positioning systems that minimize the need to anchor in fragile marine reserves. All carbon emissions from our cruises are 100 percent offset, and an Environmental Officer oversees each voyage to make sure all environmental protocols are observed to the letter.

We Practice Conservation and Minimize Waste

On voyages aboard luxury expedition cruisers and small explorer ships, we provide a complimentary reusable water bottle for every guest and significantly reduce other single-use plastics such as straws, laundry bags, cups and food containers. More than half of all packaging is recycled on board while the rest is fully tracked, ensuring nothing ends up in the water or on land.

Our Chartered Ships Are Certified Sustainable

All of our chartered luxury expedition cruisers and small explorer ships have been awarded the CLEANSHIP or CLEANSHIP SUPER label by Bureau Veritas, certifying their ecologically responsible operations and allowing you to explore with peace of mind.

Our Environmental Commitment to the Galápagos

We are committed to conserving the Galápagos Islands' precious natural resources at sea with a host of environmentally friendly operating procedures and onboard upgrades, such as advanced wastewater treatment systems. On land, we've partnered with a regional airline to open an onsite recycling facility on San Cristóbal, saving an estimated 10 tons of waste from being landfilled on the islands per year.

We're Proactive Leaders and Partners in Protecting the Polar Environment

The polar ships we charter exceed every environmental protocol, including those set by the International Association of Antarctica Tour Operators (IAATO) and the Antarctic Treaty, Association of Arctic Expedition Cruise Operators (AECO), National Science Foundation and Environmental Protection Agency. A&K has been a full operating member of IAATO since 1992 and AECO since 2012, and has served on the executive committees for both.

The International Association of Antarctica Tour Operators

IAATO has established best practices to ensure that ship-based tourism has minimal impact on the Antarctic environment. A&K has been an active IAATO member for numerous years, with our Expedition Team remaining a steadfast advocate for the preservation of Antarctica's delicate ecosystems.

The Association of Arctic Expedition Cruise Operators

Like IAATO, AECO is dedicated to managing safe, responsible and environmentally friendly travel in the Arctic. A&K is also an active member of AECO, whose core mission is preserving and protecting the endangered wildlife, delicate landscapes and remote villages of Svalbard, Jan Mayen, Greenland, Arctic Canada and Iceland.

A&K Philanthropy partners with local communities to improve lives and protect the environment.

Building on a Legacy of Partnership

A&K founder Geoffrey Kent pioneered the community-first approach to conservation more than 60 years ago. Today, A&K Philanthropy (AKP) still believes that the best way to protect our planet's remaining wilderness is to invest in the communities who live there. In alignment with UN Sustainable Development Goals, we partner with local communities to improve education, environment, health and enterprise through a global network spanning 24 countries on all seven continents — a philanthropic commitment unequalled in the travel industry.

Our Global Footprint

A&K Philanthropy employs a team of Philanthropy Coordinators stationed throughout the world, dedicated specialists who facilitate our commitment to our community partners and introduce guests to our philanthropic efforts.

Experience an A&K Philanthropy Project Firsthand

A number of our small-group journeys offer opportunities to visit an AKP partner community, affording a wealth of moving experiences you won't find anywhere else. Look for this symbol  for opportunities to visit an A&K Philanthropy project on your A&K journey.

Our projects pioneer transformation in health, education, enterprise and conservation to drive meaningful change and uplift thousands of people around the world. Here are just a few of the ways in which A&K Philanthropy is helping to make a difference.

EDUCATION

Education is the key to equality of opportunity and to the conservation of our whole world. AKP partners with underserved communities to build schools, provide books and free school meals and to foster teacher training programs. **The Children of the Rainbow School** (Fundacion Niños del Arco Iris) was founded to serve one of these communities in Peru's Sacred Valley. Alongside literacy and language lessons are sessions on nutrition, personal and social development, and respecting and caring for local plants and wildlife.

ENVIRONMENT

Through education programs with local communities and collaborating with government organizations, A&K Philanthropy promotes the protection of our planet's fragile ecosystems, from the rainforests of Uganda to the marine reserves of the Galápagos Islands. **Save the Albatross** is devoted to helping protect the albatross and other Antarctic seabirds from becoming accidentally tangled in deep sea fishing lines.

HEALTH

Safe water is a basic human need. It is a UN Sustainable Development Goal to ensure every human has access to safe and affordable drinking water by 2030, and to this end A&K Philanthropy has invested in the provision of clean-water wells, water filters, and hygiene education. Since 2017, A&K Philanthropy has partnered with **LifeStraw**, a leader in accessible filtering and purification systems, to provide safe water to thousands of children in India, Kenya, Myanmar, Tanzania, Uganda, Vietnam and Zambia.

ENTERPRISE

Our community-led enterprise projects are designed to empower people to learn, earn and progress in the destinations where our guests travel. We foster local partnerships to launch start-ups, including the **Sishemo Bead Studio** in Zambia's Nakatindi Village, which helps a small group of local women to support their families and community through traditional glass bead-making.

– Charles Darwin, *The Voyage of the Beagle*

Go ashore to discover the islands' wonders with our acclaimed Expedition Team

Rábida's volcanic rocks are the most diverse in the archipelago. Hike a trail beside the shore, keeping watch for marine iguanas, mockingbirds, yellow warblers and several species of Darwin's finch. Continue to a saltwater lagoon where migrating greater flamingos flock. Then, take advantage of the option to snorkel among a large colony of playful, inquisitive sea lions. After lunch on board, resume your explorations in this fascinating corner of the Galápagos Islands. **Meals: B L D**

DAY 8: Santa Cruz Island | Into the Highlands
Awake in Santa Cruz's lively harbor of Academy Bay. Go ashore at Ayora Point and ascend through the seven vegetation zones of the Galápagos as you make your way into the highlands. Next, visit the Fausto Llerena Breeding Center to a vital resource harboring various species of giant tortoise, followed by a stop at the Charles Darwin Research Station, where you learn about ongoing conservation efforts. After lunch back on board, set out again to view “the tunnels” — the largest lava tubes found in the Galápagos. Next, proceed to Rancho Primicias, a privately owned farm in the highlands, where you encounter the

giant tortoise in its natural habitat. Later, return to your ship by Zodiac for a lavish farewell dinner. **Meals: B L D**

DAY 9: Depart Guayaquil or Quito

After breakfast, bid your Captain and crew farewell as you disembark your yacht for a final time on San Cristóbal. Once ashore, visit the local Interpretation Center to learn more about the island's anthropology and natural history. Afterward, enjoy time at leisure, perhaps walking a nearby trail or taking some last-minute photos. Later today, fly to Guayaquil or Quito to connect with your homeward flight. **Meals: B**

Note: Vessel subject to change. Ecoventura Theory's sister ships **Origin** or **Evolve** may also be used.
